Product Description

Product Description:

Copper Sheet Plate offers a wide range of thickness from 0.1mm to 200mm, with a variety of surface finishes such as polished, bright, anodized or customized. It is made of high quality copper material, with a minimum order quantity of 1 ton. The package is standard export package and it is suitable for copper sheet galvanizing, copper sheet corrugating and copper sheet laminating.

Features:

Product Name: Copper Sheet Plate
Surface: Polished, Bright, Anodized, Etc.
Length: 1000mm-6000mm
Shape: Sheet Plate
Package: Standard Export Package
Material: Copper
Special Feature: Copper Sheet Corrugating, Copper Sheet Galvanizing

Technical Parameters:

Processing	Cutting, Bending, Welding, Stamping, Laminating, Etc.
Width	1000mm-3000mm
Material	Copper
MOQ	1 Ton
Payment Term	T/T, L/C, Etc.
Length	1000mm-6000mm
Thickness	0.1mm-200mm
Package	Standard Export Package
Surface	Polished, Bright, Anodized, Etc.
Tolerance	±0.01mm

Applications:

Copper sheet plate is a type of metal sheet used for various applications. It is made from high-grade copper alloy and is available in various thicknesses, shapes, sizes, and forms. The copper sheet plate is highly durable and corrosion-resistant. It is also easy to work with and can be cut, formed, punched, rolled, bent, and laminated into a wide variety of shapes. It is often used in industrial and commercial applications such as electrical wiring, roofing, and insulation. It is also used for artistic purposes like jewelry-making and sculptures. Copper sheet plate has a range of brand names, including Copper, C10100, C10200, C10300, C10400, C10500, C10700, C10800, C10910, C10920, C10930, C11000, C11300, C11400, C11500, C11600, C12000, C12200, C12300, C12500, C14200, C14420, C14500, C14510, C14520, C14530, C17200, C19200, C21000, C23000, C26000, C27000, C27400, C28000, C33000, C33200, C37000, C44300, C44400, C44500, C60800, C63020, C65500, C68700, C70400, C70620, C71000, C71500, C71520, C71640, C72200. It is manufactured by various companies in Jiangsu Wuxi and is certified by ISO 9001:2008, SGS, and other organizations. Payment terms can be T/T, L/C, and other options. It is available in lengths of 1000mm-6000mm and in various surfaces like polished, bright, anodized, etc. It is also used for copper sheet corrugating, laminating, stamping, punching, rolling, and bending.

Customization:

Customized Copper Sheet Plate Service

We provide professional customized services for Copper Sheet Plate. The product features brand name "Copper", model numbers C10100, C10200, C10300, C10400, C10500, C10700, C10800, C10910, C10920, C10930, C11000, C11300, C11400, C11500, C11600, C12000, C12200, C12300, C12500, C14200, C14420, C14500, C14510, C14520, C14530, C17200, C19200, C21000, C23000, C26000, C27000, C27400, C28000, C33000, C33200, C37000, C44300, C44400, C44500, C60800, C63020, C65500, C68700, C70400, C70620, C71000, C71500, C71520, C71640, C72200 and from place of origin Jiangsu Wuxi. It comes with standard export package. The material is copper and the tolerance is ±0.01mm. The width ranges from 1000mm to 3000mm, and the shape is sheet plate.

Our services include copper sheet stamping, copper sheet rolling, copper sheet galvanizing, copper sheet laser cutting and copper sheet bending.

Support and Services:

Copper Sheet Plate technical support and services include:

Provide technical advice and guidance on product selection and application.

Provide custom fabrication and machining services.

Provide advice on installation and maintenance.

Provide warranty service and after-sales service.

Assist in troubleshooting issues.

Provide spare parts support.

Packing and Shipping:

Packaging and Shipping for Copper Sheet Plate

Copper sheet plate is generally supplied in standard sizes and custom cut sizes. It is packaged and shipped in a variety of ways to meet customer requirements.

Small quantities are typically packaged in cardboard boxes, plastic bags, or foam padding.

Larger quantities are typically packaged in wooden crates or on wooden pallets.

The packaging material used should be able to withstand the weight of the copper sheet plate and protect it from external damage.

The copper sheet plate should be clearly labeled with the product name, size and quantity.

The copper sheet plate can be shipped via air, sea, or land transportation.
